Chip-
I plan to attend in person. See below for my comments on date options.

Tom

Subject: EPA/Partners FS Team Meeting - Feb dates

Following up on our TCT discussions, we would like to schedule a FS technical team meeting sometime this month to get organized for the review of the LWG's draft FS report, which will be arriving the end of March.

Purpose of the meeting is to develop our review strategy, identify roles and expertise, establish the review schedule, including internal and external meetings, and interaction with the LWG, including dates for their roll out meeting. Also any initial reaction to the January 17th deliverables. We'll provide an agenda before the meeting and major milestones for the review. Also, we will continue our regular TCT meetings to provide updates to the broader team.

Please let me know if you plan to attend or call-in (we'll use the TCT conference line) and whether any of the following dates work.

February 22nd - afternoon (TCT in the morning) OK
February 23rd - morning or afternoon AM OK
February 16th - afternoon (Arkema EE/CA briefing in the morning) OK

or open days the week of February 27th 2/27-29 all day, 3/1 PM

thanks
Chip
